

Oil Reset

How to Reset Your Burner

First Make sure that your
Emergency Service Switch
is in the "On" position

(Usually located on the top of a
staircase or near the burner)

Locate the Burner.

Some burners are
located inside of a
cover like this one.

Then press the **RED** reset button

****Once and only Once****

If it does not come on please
contact York Oil and Propane.

(207) 363-6457
